

OUR MISSION

Our mission is to empower individuals and parents of children with special needs with knowledge that makes a difference in their lives. We are dedicated to raising awareness in our community. What we do today will make a difference tomorrow. We are the voices for the voiceless.

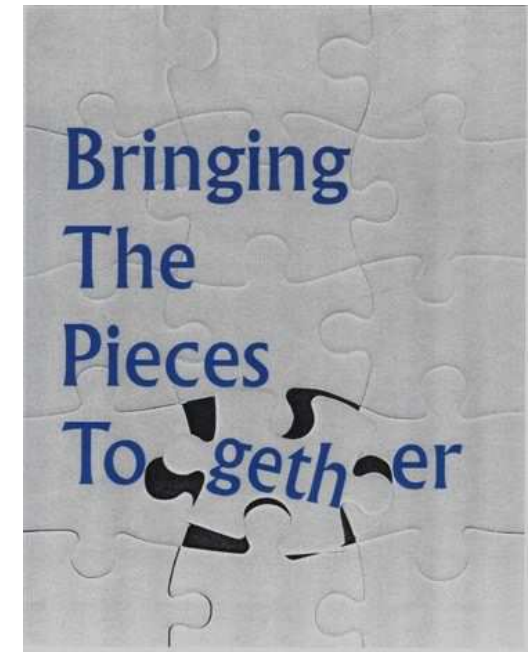

OUR PURPOSE

Our purpose is to support families of children with Autism Spectrum Disorders and other special needs by gathering and distributing information about a variety of topics. We all want to learn about and discuss anything that may potentially benefit our children. Parents or other people concerned with autism/special needs are encouraged to join us.

Making a difference in the lives of children with Autism one puzzle piece at a time.

Autism Solutions Support Group

Information & Resources on Autism Spectrum Disorders

Networking & Support for Individuals, Families & Professionals

Events, Conferences & Meetings for Autism & other Disabilities

All I ask is try to
Understand my disability
Tolerate my differences
I am unlike other children
See the world through my eyes
Make a difference in my life

What about therapies & treatments?

A: Any therapy and treatment that supports our children physiologically can potentially be of benefit. Some of these include:

- Applied Behavioral Analysis Therapy
- biological treatment (D.A.N. protocol)
- dietary interventions
- supplementation
- speech therapy
- occupationally therapy
- sensory integration therapy
- hyperbaric therapy
- auditory integration therapy
- music therapy
- vision therapy
- physical therapy
- hippo therapy
- Relationship Development Integration
- Greenspan Floor Time
- Play therapy
- Rapid Prompting Method
- And many more.....

There is hope for our children! We are passionate about meeting the needs of those with Autism Spectrum Disorders (ASD) & their loved ones. We are dedicated to making sure that the phrase “**AUTISM IS TREATABLE**” becomes a well known fact and common knowledge.

Every child & family is different. What works for one may not work for another. However, there are many therapies and treatments that do work. Never give up; your child is depending on you!
