

AUTISM SOLUTIONS - Special Needs Support Group

Parents of Special Needs Children: Autism, Asperger's, ADD, ADHD, Anxiety, Bipolar, Depression, Emotional Problems, ODD, OCD, PDD and many more....

Our group is opening our ANGEL wings to all special needs families, because the need in our area is so great. This group is a place where parents, teachers and professionals can come together and talk about the challenges we go through every day, in the home, in the classroom and in the community. We are in this together; you are not alone, so come share your experiences. We share information about various disabilities. We discuss strategies and concerns that have helped our children. We share many resources and raise awareness. We have speakers on a variety of topics through-out the year. We welcome all who need support!
